Dear Mr. Fazio,

Good news! The reading proficiency of the ELL students at Chavez increased **A LOT** as measured by AIMS Reading.

2008 Proficiency Rate: 27% → 2009 Proficiency Rate: 42% = 15% Growth in one year!

On behalf of our ELL students, parents and staff, I would like to thank you and your college tutors for your contribution to the academic success of our students!

The new school year is around the corner. This year we will set greater expectations for our students and incorporate more rigor in our classrooms. We are planning to restart our tutoring program as soon as possible after school starts on August 3.

We hope you will continue to support us with our tutoring program this year for Greater Academic Success of our ELL Students!
Thanks!

Mingping
